Global Call to Action Against Poverty
People Rising to End Inequalities

Toolkit for Social Media Actions for International Women's Day 2024

21 Testimonials from all over the world to Inspire Inclusion

The GCAP Women and Feminists Constituency Group wants to raise strong voices of women to InspireInclusion. We aim to amplify the voices of feminists and women from Communities Discriminated on Work and Descent (CDWD) like the Dalits, indigenous people, women with disabilities, those with African descent, women in informal settlements and others.

Theme:

"Inspire Inclusion"

Objectives:

- Amplify the voices of women facing discrimination, including CDWD women, Indigenous women, women with disabilities, and other marginalized groups.
- Raise awareness about gender equality, emphasizing key issues of women facing multiple discrimination.

- Demand action from policymakers to address gender inequality, social protection, health coverage and education
